**Live Operators Hand-Dialed Cell-Phone Respondents in this Statewide GOP Primary Research:** Exclusively for the J.W. Pope Civitas Institute of Raleigh, SurveyUSA interviewed 480 registered North Carolina voters who had cast a Republican ballot in one or both of the 2012 and 2010 Republican primaries, using RBS (Registration Based Sample, aka voter-list sample) provided by Aristotle of Washington DC. Interviews conducted 03/19/14 through 03/23/14. Of the 480 registered voters, 378 identified themselves as registered Republicans; of the Republicans, 365 identified themselves as certain or likely to vote in the 05/06/14 Republican primary. Of the 480 registered voters, another 102 identified themselves to be registered without a party affiliation; of those unaffiliated voters, 91 identified themselves as certain or likely to vote in the primary; of the 91 unaffiliated primary voters, 40 identified themselves as being certain to request a Republican primary ballot. The 365 Republicans and 40 unaffiliated voters combine to make up the 405 likely Republican primary voters shown here. Respondents reachable on a home telephone (83% of likely primary voters) were interviewed on their home telephone in the recorded voice of a professional announcer. Respondents not reachable on a home telephone (17% of likely primary voters) were called by live-operators, who hand-dialed the phone, qualified the respondent, interviewed the respondent, logged the respondent's answers, and remained on the line until the conclusion of the call.

How will you vote in the primary? By voting early at one of the local, one-stop early voting locations? By voting by mail? Or will you vote at the polls on Election Day?
