CIVITAS INSTITUTE / NORTH CAROLINA STATEWIDE STUDY / MARCH 18-20, 2014

North Carolina actually spends over \$8,500 each year in total tax dollars per student on K-12 (K through twelve) education. This does not include money spent to build schools. Knowing North Carolina spends ABOUT \$8,500 per student on K-12 education is that (ROTATE) too much, not enough, or about the right amount?

North Carolina actually spends over \$8,500 each year in total tax dollars per student on K-12 (K through twelve) education. This does not include money spent to build schools. Knowing North Carolina spends ABOUT \$8,500 per student on K-12 education is that (ROTATE) too much, not enough, or about the right amount?

CIVITAS INSTITUTE / NORTH CAROLINA STATEWIDE STUDY / MARCH 18-20, 2014

Tenure - or career status - has traditionally been granted to teachers who successfully complete a three or four year probationary period. Tenure prohibits dismissal, demotion or removal except for violating one of fifteen stated criteria. Proponents say it is a safeguard against favoritism. Opponents say it makes it very difficult to remove ineffective teachers. Do you favor or oppose the concept of tenure for teachers?

CIVITAS
INSTITUTE

CIVITAS INSTITUTE / NORTH CAROLINA STATEWIDE STUDY / MARCH 18-20, 2014

North Carolina adopted Common Core Standards in 2010 and is incorporating the standards into the classroom. Proponents claim the standards are more rigorous, necessary to align what is taught in 50 different states and common core will make students college and career ready. Opponents say the standards are not as good as the best state standards, are age inappropriate and result in a loss of state and local control over education. Do you favor or oppose Common Core State Standards?

CIVITAS INSTITUTE / NORTH CAROLINA STATEWIDE STUDY / MARCH 18-20, 2014

North Carolina adopted Common Core Standards in 2010 and is incorporating the standards into the classroom. Proponents claim the standards are more rigorous, necessary to align what is taught in 50 different states and common core will make students college and career ready. Opponents say the standards and not as good as the best state standards, are age inappropriate and result in a loss of state and local control over education. Do you favor or oppose Common Core State Standards?
