 QUESTION 36:  
 Transgender persons are individuals who identify as a gender that is different from the physical gender they were born as. In various schools, education officials say a male student who identifies as a girl and participates on a girls' sports team has the right to use the girls' locker and bathroom room without restrictions. The same rule applies for female students who identify as male. Do you favor or oppose allowing transgender people to use bathrooms and locker rooms designated for the opposite sex?
